Healthcare Business Specialists

- What does Healthcare Business Specialists do?
- Listing of Services

<https://tinyurl.com/w63xbp9>

- We prepare Medicare and Medicaid Cost Reports for Rural Health Clinics.
- We prepare Program evaluations of RHCs.
- We help clinics startup as RHCs.
- Emergency Preparedness for RHCs.
- We prepare TennCare Quarterly Reports
- Our Cost Reporting Brochure can be found at the following link:
- [RHC Cost Report Brochure](#)

### COVID-19 RESOURCES FOR RHCS

Healthcare Business Specialists is using this COVID-19 website to provide resources for our RHCs. We have provided links to valuable information as you deal with this world-wide pandemic.

Vast amounts of ever-changing information must be assimilated by RHCs regarding the COVID-19 Public Health Emergency (PHE) at a dizzyingly fast pace. It is difficult, even impossible, to keep up with all the changes affecting the operation of a medical clinic or hospital during this unprecedented time. Information has always been a perishable asset, but, never so much as in this time of constant change and guidance from our government. While not getting political, one can not help but be impressed by the dedication and commitment from our governmental agencies in fighting this war with COVID-19 and the government's resolve to win this war without completely sacrificing the financial future of those that survive this war.

In order to help you process, organize, and locate information related to COVID-19 we have organized this site into Topics, so you find information much faster. If you click the links below you will find a chronological list of resources dated from the latest to the oldest. We at Healthcare Business Specialists hope this helps you find the answers you need during this difficult time.

- Telehealth
- State Medicaid and Regulations
- Financial
- Laws and Regulations
- Other Resources

**For Updates, a recording of this webinar, slide presentations, and lots of information on RHCs and COVID-19 go to our COVID-19 Website**

<http://www.ruralhealthclinic.com/covid19>

## Disclaimer

---

- Due to COVID-19 Healthcare Policy is changing rapidly, waivers are being issued, guidance is being backdated, issued and retracted, official documents are out of date almost as soon as they are issued, so proceed with caution. Some of our resources will contain outdated information, but most of the information is still relevant. The trick and frustrating part is knowing what changed and when. This presentation was prepared on April 11, 2020 and we believe it to be current as of that date, but we could have missed something. If you know of an omission or change, please let us know and we correct it.

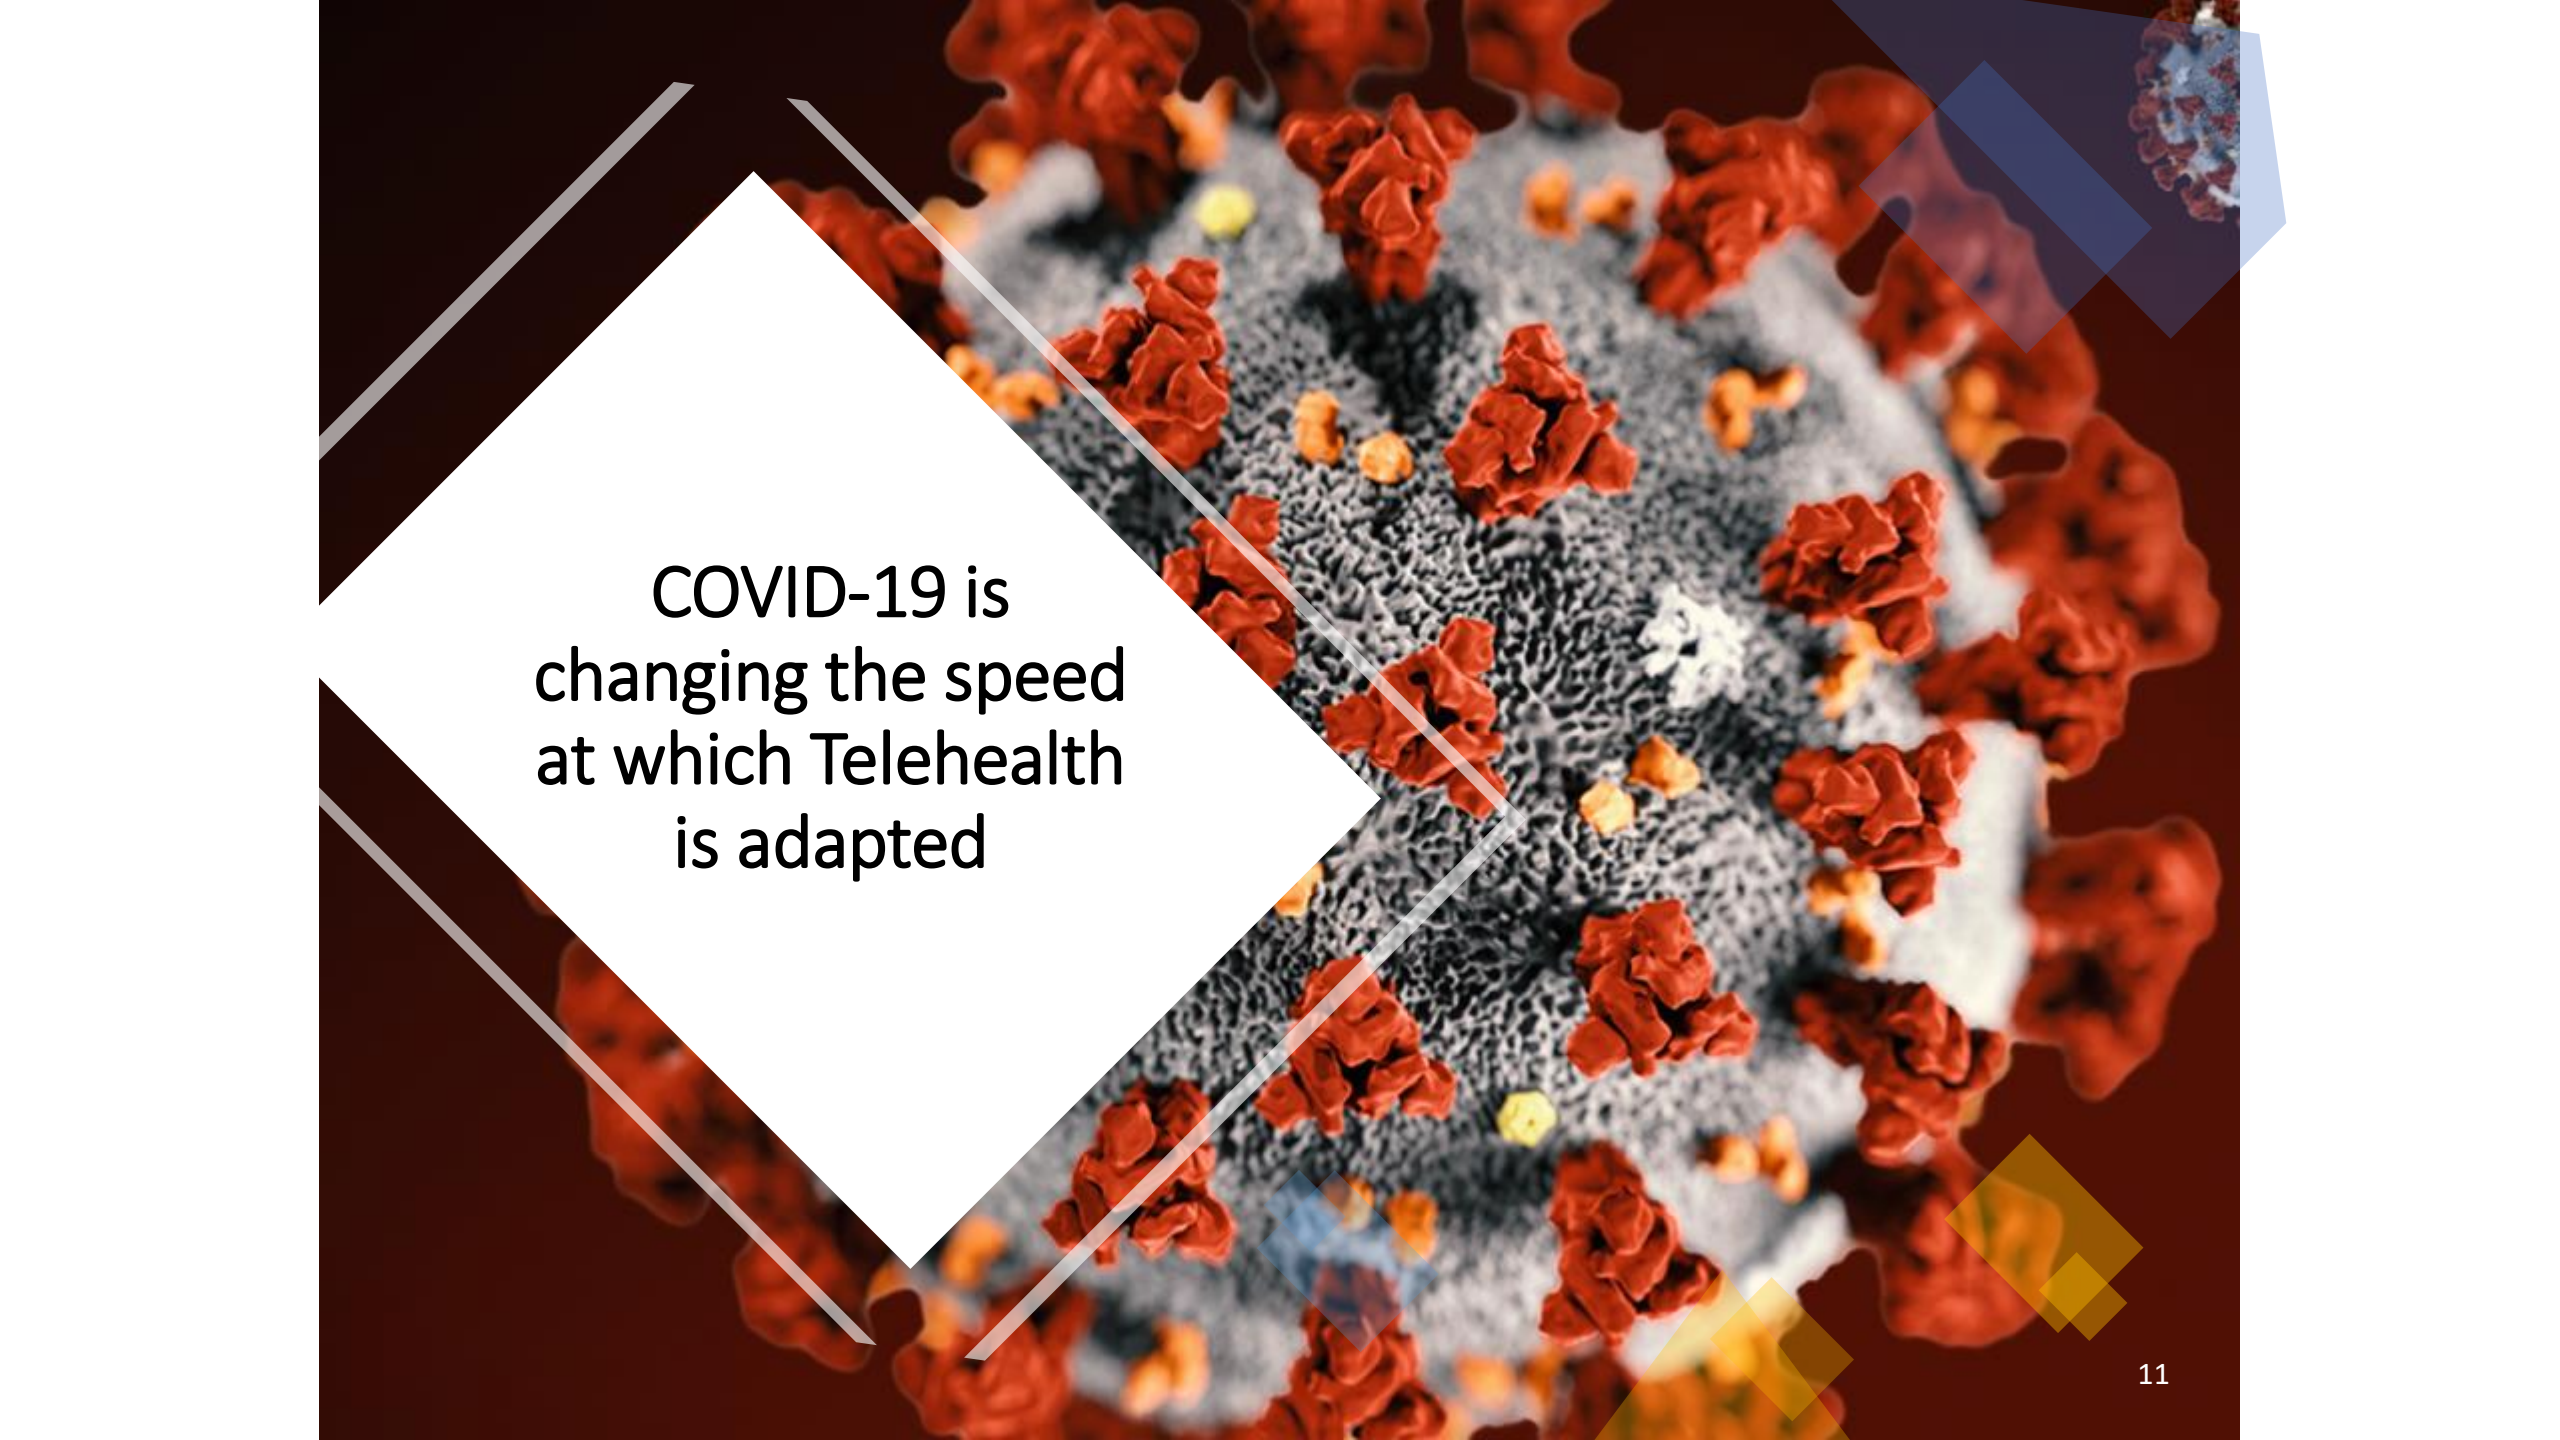

Telehealth is Changing the way healthcare is delivered

The Purpose of this webinar is to help RHCs adapt to change caused by COVID-19 and the need to rapidly adopt Telemedicine by RHCs

A microscopic image of a coronavirus particle, showing its characteristic spherical shape with a textured surface and numerous red, crown-like spikes (glycoprotein spikes) protruding from it. The particle is set against a dark background. A white diamond-shaped text box is overlaid on the left side of the image, containing the text. There are also some blue and yellow geometric shapes in the corners of the image.

COVID-19 is  
changing the speed  
at which Telehealth  
is adapted

We will be talking mostly about Medicare rules  
which do not always apply to other payers

He who has the Gold  
Makes the Rules

Don't let the  
tail wag the Dog

# What is a 1135 Public Health Emergency (PHE)

- When the President declares a major disaster or an emergency under the Stafford Act or an emergency under the National Emergencies Act, and the HHS Secretary declares a public health emergency, the Secretary is authorized to take certain actions in addition to his regular authorities under section 1135 of the Social Security Act. He may waive or modify certain Medicare, Medicaid, Children's Health Insurance Program (CHIP) and Health Insurance Portability and Accountability Act (HIPAA) requirements as necessary to ensure to the maximum extent feasible that, in an emergency area during an emergency period, sufficient health care items and services are available to meet the needs of individuals enrolled in Social Security Act (SSA) programs and that providers of such services in good faith who are unable to comply with certain statutory requirements are reimbursed and exempted from sanctions for noncompliance other than fraud or abuse.

Where can I find more information on Telehealth Policies, Laws, and Regulations (start at the 55<sup>th</sup> minute)

<https://www.cchpca.org/>

The screenshot displays the website's main page with the title "TELEHEALTH STATE-BY-STATE POLICIES, LAWS & REGULATIONS". It features a search bar at the top, a navigation menu, and a central "Interactive Policy Map" of the United States. To the right of the map, there are three sections for searching by category and topic:

- Search by Category & Topic**
  - Medicaid Reimbursement**
    - Live Video
    - Store & Forward
    - Remote Patient Monitoring Reimbursement
  - Private Payer Reimbursement**
    - Private Payer Laws
    - Parity Requirements
  - Professional Regulation/Health & Safety**
    - Cross-State Licensing
    - Consent
    - Prescribing
    - Misc (Listing of Practice Standards)

At the bottom of the screenshot, there is a video player showing a video titled "Coronavirus disease (COVID-19)" with a timestamp of 57:28 / 1:44:43. Below the video player is a link to the CDC website.

The video thumbnail features a healthcare worker in blue scrubs holding a tablet. The text on the thumbnail reads:

- Telehealth & COVID-19: State Updates**
- April 8, 2020
- Center for Connected Health Policy  
The National Telehealth Policy Resource Center
- Mei Wa Kwong, JD,  
Executive Director, CCHP
- CENTER FOR CONNECTED HEALTH POLICY (CCHP)
- is a non-profit, non-partisan organization that seeks to advance state and national telehealth policy to promote improvements in health care and create health equity.

**Rural Telehealth Toolkit**

**COVID-19 Telehealth Updates**

See the [Telehealth Use in Rural Healthcare](#) topic guide and its list of [resources](#), [news](#), and [events](#) for the latest updates related to COVID-19.

**Rural Telehealth Toolkit**

Welcome to the Rural Telehealth Toolkit. The toolkit compiles evidence-based and promising models and resources to support organizations in identifying and implementing telehealth programs to address common challenges experienced in rural communities across the United States.

The modules in the toolkit contain resources and information focused on developing, implementing, evaluating, and sustaining telehealth programs for rural community health programs. There are more resources on general community health strategies available in the [Rural Community Health Toolkit](#).

**Module 1: Introduction to Rural Telehealth**  
Overview of telehealth in the U.S. and unique challenges that rural communities face.

**Module 2: Program Models**  
Models for telehealth programs to address common rural community health challenges.

**Module 3: Program Clearinghouse**  
Examples of evidence-based and promising telehealth programs that have been implemented in rural communities.

#### Intent of Toolkit:

Under President Trump's leadership to respond to the need to limit the spread of community COVID-19, the Centers for Medicare & Medicaid Services (CMS) has broadened access to Medicare telehealth services so that beneficiaries can receive a wider range of services from their doctors without having to travel to a healthcare facility. These policy changes build on the regulatory flexibilities granted under the President's emergency declaration. CMS is expanding this benefit on a temporary and emergency basis under the 1135 waiver authority and Coronavirus Preparedness and Response Supplemental Appropriations Act. The benefits are part of the broader effort by CMS and the White House Task Force to ensure that all Americans – particularly those at high-risk of complications from the virus that causes the disease COVID-19, are aware of easy-to-use, accessible benefits that can help keep them healthy while helping to contain the community spread of this virus.

Under this new waiver, Medicare can pay for office, hospital, and other visits furnished via telehealth across the country and including in patient's places of residence starting March 6, 2020. A range of providers, such as doctors, nurse practitioners, clinical psychologists, and licensed clinical social workers, will be able to offer telehealth to their patients. Additionally, the HHS Office of Inspector General (OIG) is providing flexibility for healthcare providers to reduce or waive cost-sharing for telehealth visits paid by federal healthcare programs.

Note, this toolkit is designed to provide information only and not intended to endorse any non-federal entities.

## General Provider Telehealth and Telemedicine Tool Kit

Telehealth, telemedicine, and related terms generally refer to the exchange of medical information from one site to another through electronic communication to improve a patient's health. Innovative uses of this kind of technology in the provision of healthcare is increasing. And with the emergence of the virus causing the disease COVID-19, there is an urgency to expand the use of technology to help people who need routine care, and keep vulnerable beneficiaries and beneficiaries with mild symptoms in their homes while maintaining access to the care they need. Limiting community spread of the virus, as well as limiting the exposure to other patients and staff members will slow viral spread.

There are three main types of virtual services physicians and other professionals can provide to Medicare beneficiaries summarized in this fact sheet <https://www.cms.gov/newsroom/fact-sheets/medicare-telemedicine-health-care-provider-fact-sheet>: Medicare telehealth visits, virtual check-ins and e-visits.

TYPE OF SERVICE	WHAT IS THE SERVICE?	HCPCS/CPT CODE	Patient Relationship with Provider
<b>MEDICARE TELEHEALTH VISITS</b>	A visit with a provider that uses telecommunication systems between a provider and a patient.	Common telehealth services include: <ul style="list-style-type: none"> <li>• 99201-99215 (Office or other outpatient visits)</li> <li>• G0425-G0427 (Telehealth consultations, emergency department or initial inpatient)</li> <li>• G0406-G0408 (Follow-up inpatient telehealth consultations furnished to beneficiaries in hospitals or SNFs)</li> </ul> For a complete list: <a href="https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes">https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes</a>	For new* or established patients.  *To the extent the 1135 waiver requires an established relationship, HHS will not conduct audits to ensure that such a prior relationship existed for claims submitted during this public health emergency.
<b>VIRTUAL CHECK-IN</b>	A brief (5-10 minutes) check in with your practitioner via telephone or other telecommunications device to decide whether an office visit or other service is needed. A remote evaluation of recorded video and/or images submitted by an established patient.	<ul style="list-style-type: none"> <li>• HCPCS code G2012</li> <li>• HCPCS code G2010</li> </ul>	For established patients.
<b>E-VISITS</b>	A communication between a patient and their provider through an online patient portal.	<ul style="list-style-type: none"> <li>• 99421</li> <li>• 99422</li> <li>• 99423</li> <li>• G2061</li> <li>• G2062</li> <li>• G2063</li> </ul>	For established patients.

Effective immediately, the HHS Office for Civil Rights (OCR) will exercise enforcement discretion and waive penalties for HIPAA violations against health care providers that serve patients in good faith through everyday communications technologies, such as FaceTime or Skype, during the COVID-19 nationwide public health emergency. For more information: <https://www.hhs.gov/hipaa/for-professionals/special-topics/emergency-preparedness/index.html>

CMS encourages all providers to share with patients these new abilities to provide healthcare through telemedicine.

## Using Telehealth to Care for Patients During the COVID-19 Pandemic

Telemedicine and virtual care have quickly become important tools in caring for your patients while keeping yourself and your staff safe as the COVID-19 pandemic quickly evolves. Here is what you need to know when providing telehealth services.

### How Do I Quickly Implement Telemedicine in My Practice?

- Download the [CMS General Telemedicine Toolkit](#) (6 page PDF).
- Review this [AMA Telemedicine Quick Set-up Guide](#) ([www.ama-assn.org](#)) in response to the COVID-19 national emergency.

### Expansion of Telehealth and Licensing Waivers During the COVID-19 Pandemic

- [State Telehealth & Licensure Expansion Dashboard](#) ([connectwithcare.org](#))

### How Do I Get Reimbursed?

The Centers of Medicare & Medicaid Services (CMS) has loosened the regulations for telemedicine in response to the COVID-19 pandemic. Telehealth services may now be delivered to Medicare beneficiaries by phone as long as video capability is available.

Review the links below for more information and read more on the [FPM Journal Getting Paid](#) blog.

- [Read the CMS fact sheet](#) ([www.cms.gov](#)) to understand how Medicare will cover and reimburse virtual services.
- [Review the CMS FAQs](#) ([edit.cms.gov](#)) to get answers to your questions about telehealth coverage and reimbursement.
- [Get guidance on Medicaid coverage](#) ([www.medicaid.gov](#)) for telehealth services.
- [Need help with telehealth coding?](#) (1 page PDF) Access this guide to give you at-a-glance coding information for telehealth visits.

### Selecting Technology for Use

#### Fighting for Family Medicine: AAFP Advocates for CMS to Relax Key Regulations

After the AAFP advocated for telehealth latitude (2 page PDF), CMS announced on March 30 plans to temporarily relax a number of key regulations.

This will help family physicians better respond to the COVID-19 pandemic and includes other measures to relieve administrative burden and reinforce staffing.

[See the Full List](#)

### Key Questions You Will Want to Answer When Exploring Telehealth Platforms

The AAFP is gathering answers to these questions across vendors:

- Can I exit my contract at any time (i.e., not locked into a 2-year contract)?
- Is there a waiting room feature so I can queue my patients up?
- Is the platform device agnostic (i.e., can physicians/providers and patients use device of their choosing for virtual care)?
- Is there an out-of-office message noting we're not available to take your call right now? (i.e., during off hours or overnight)?
- Does the software has the ability to schedule a visit? **Note:** This is a more advanced feature; it's not absolutely required to have now, but it's very nice to have
- Is the platform deployable in days?

### Medicare Telehealth Services

- Are provided using telecommunication technology and include office, hospital visit, or other services that generally occur in person. A [list of Medicare telehealth services](#) ([www.cms.gov](#)) is available.
- Should be billed with the Place of Service (POS) code "02."
- Are considered the same as in-person visits and paid at the same rate as in-person visits.
- Can be provided to established Medicare patients via phone if the phone allows for audio-video interaction between the physician and patient.
- Established patient means a Medicare patient seen either by you (or another physician or provider within the same practice) within the last three years.
- The Department of Health and Human Services (HHS) has announced that it will [not conduct audits](#) ([www.cms.gov](#)) to ensure a prior relationship existed for claims submitted during the COVID-19 public health emergency.
- Can be provided in all settings, including a patient's home. [Originating site restrictions have been waived](#) ([www.cms.gov](#)).
- The HHS Office of Inspector General (OIG) is allowing practices to [waive cost-sharing for telehealth visits](#) ([www.cms.gov](#)).

### Medicare Non-Telehealth Services

#### Medicare Virtual Check-ins (G2012)

- Enable a quick visit with an established patient to determine if an in-person visit is necessary.
- Are brief (5-10 minutes) conversations with a physician or other clinician, where the communication is not be related to a medical visit within the previous seven days and does not lead to medical visit within the next 24 hours (or soonest appointment available).
- Can be conducted through multiple communication technology modalities, including
  - Synchronous telephone conversation
  - Exchange of information through video or image
- Physician or other clinician may respond to patient by telephone, audio/video, secure text messaging, email, or use of a patient portal.
- Are initiated by the patient and patient must provide verbal consent.
- Are subject to coinsurance and deductible.
- G2010 can be used when a captured video or image is sent to the physician. The physician must follow-up with the patient within 24 business hours. The consultation must not originate from an evaluation and management (E/M) service provided within the previous seven days or lead to an E/M service within the next 24 hours (or soonest available appointment).

### Medicare coverage and payment of virtual services

#### INTRODUCTION:

Under President Trump's leadership, the Centers for Medicare & Medicaid Services (CMS) has broadened access to Medicare telehealth services so that beneficiaries can receive a wider range of services from their doctors without having to travel to a healthcare facility. These policy changes build on the regulatory flexibilities granted under the President's emergency declaration. CMS is expanding this benefit on a temporary and emergency basis under the 1135 waiver authority and Coronavirus Preparedness and Response Supplemental Appropriations Act. The benefits are part

## KEY TELEHEALTH TAKEAWAYS

- *Effective for **services starting March 6, 2020 and for the duration of the COVID-19 Public Health Emergency**, Medicare will make payment for Medicare telehealth services furnished to patients in broader circumstances.*
- *These visits are considered the same as in-person visits and are paid at the same rate as regular, in-person visits.*
- *Starting March 6, 2020 and for the duration of the COVID-19 Public Health Emergency, Medicare will make payment for professional services furnished to beneficiaries in all areas of the country in **all settings**.*

## Key Telehealth Takeaways (2)

- *While they must generally travel to or be located in certain types of originating sites such as a physician's office, skilled nursing facility or hospital for the visit, effective for services starting March 6, 2020 and for the duration of the COVID-19 Public Health Emergency, Medicare will make payment for Medicare telehealth services furnished to beneficiaries in any healthcare facility and in their home. (No longer restricted to originating sites)*
- *The Medicare coinsurance and deductible would generally apply to these services. However, the HHS Office of Inspector General (OIG) is providing flexibility for healthcare providers to reduce or waive cost-sharing for telehealth visits paid by federal healthcare programs.*
- *To the extent the 1135 waiver requires an established relationship, HHS will not conduct audits to ensure that such a prior relationship existed for claims submitted during this public health emergency. (New patients are allowed during the duration of the National Emergency.)*

COVID-19 Information Page

**COVID-19 Information Page**

Get Email Updates: 

As of March 16, 2020, HHS and the DEA, in accordance with the public health emergency exception, will allow Schedule II-V controlled substances to be prescribed to patients, even when an in-person medical evaluation has not been conducted, if the following conditions are met:

- The prescription is for a legitimate medical purpose by a practitioner acting in the usual course of their professional practice
- The telemedicine communication is conducted using an audio-visual, real-time, two-way interactive communication system; and
- The practitioner is acting in accordance with applicable Federal and State laws.

# Physicians and Other Clinicians: CMS Flexibilities to Fight COVID- 19 – March 30, 2020

- Beneficiary consent should not interfere with the provision of telehealth services. **Annual consent may be obtained at the same time, and not necessarily before, the time that services are furnished.**
- Physician visits: CMS is waiving the requirement in 42 CFR 483.30 for physicians and non-physician practitioners to perform in-person visits for nursing home residents and allow visits to be conducted, as appropriate, via telehealth options.

## Why Medicare Patients are slow to adopt Telemedicine

# Medicare is Falling Behind

Medicare

Commercial Insurance

Medicaid

# How Medicare RHC Regulations have slowed the growth of Telehealth

The Patient must be located at specific originating sites (except during State of Emergency)

RHCs can not be Distant Sites (except during State of Emergency)

Telehealth costs are not used to compute the AIR.

Originating Sites for  
Telemedicine can now  
be in urban areas and  
can be initiated from a  
patient's home

---

# Medicare Originating Sites

## ORIGINATING SITES

An originating site is the location where a Medicare beneficiary gets physician or practitioner medical services through a telecommunications system. The beneficiary must go to the originating site for the services located in either:

- A county outside a Metropolitan Statistical Area (MSA)
- A rural [Health Professional Shortage Area](#) (HPSA) in a rural census tract

The Health Resources and Services Administration (HRSA) decides HPSAs, and the Census Bureau decides MSAs. To see a potential Medicare telehealth originating site's payment eligibility, go to HRSA's [Medicare Telehealth Payment Eligibility Analyzer](#).

Providers qualify as originating sites, regardless of location, if they were participating in a Federal telemedicine demonstration project approved by (or getting funding from) the U.S. Department of Health & Human Services as of December 31, 2000.

Beginning July 1, 2019, the [Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment \(SUPPORT\) for Patients and Communities Act](#) removes the originating site geographic conditions and adds an individual's home as a permissible originating telehealth services site for treatment of a substance use disorder or a co-occurring mental health disorder.

**Waived duration of National Emergency**

Each December 31 of the prior calendar year (CY), an originating site's geographic eligibility is based on the area's status. This eligibility continues for a full CY. Authorized originating sites include:

- Physician and practitioner offices
- Hospitals
- Critical Access Hospitals (CAHs)
- Rural Health Clinics
- Federally Qualified Health Centers
- Hospital-based or CAH-based Renal Dialysis Centers (including satellites)
- Skilled Nursing Facilities (SNFs)
- Community Mental Health Centers (CMHCs)
- Renal Dialysis Facilities
- Homes of beneficiaries with End-Stage Renal Disease (ESRD) getting home dialysis
- Mobile Stroke Units

**Note:** Medicare does not apply originating site geographic conditions to hospital-based and CAH-based renal dialysis centers, renal dialysis facilities, and beneficiary homes when practitioners furnish monthly home dialysis ESRD-related medical evaluations. Independent Renal Dialysis Facilities are not eligible originating sites.

Beginning January 1, 2019, the Bipartisan Budget Act of 2018 removed the originating site geographic conditions and added eligible originating sites to diagnose, evaluate, or treat symptoms of an acute stroke. Go to MLN Matters® article, [New Modifier for Expanding the Use of Telehealth for Individuals with Stroke](#) to learn how to use the new modifier for billing.

**Waived duration of National Emergency**

# Providers furnishing telehealth services from home do NOT have call Part B add their home address to their Medicare Enrollment

This answer was removed from the most recent FAQ

## 11. Can the distant site practitioner furnish Medicare telehealth services from their home? Or do they have to be in a medical facility?

There are no payment restrictions for a distant site practitioner furnishing Medicare telehealth services from their home. The practitioner must add their Medicare home address to their Medicare enrollment file by reaching out to the Medicare Administrative Contractor in their jurisdiction through the provider enrollment hotline. It would be inappropriate for practitioners to provide care without a disruption of enrollment requirements found at 42 CFR 424.516.

If the physician or non-physician practitioner reassigns their Medicare benefits to a clinic or group practice, the clinic/group practice is required to update their Medicare enrollment with the home location. The clinic/group practice can add the individual's home address to their Medicare enrollment file by reaching out to the Medicare Administrative Contractor in their jurisdiction through the provider enrollment hotline.

# Is Telehealth here to Stay?

# Definitions

RHCs

Private Practice (not an RHC)  
Non-RHC Hours

Technically RHCs provide a Part B service funded through the Part B Trust Fund and paid through a Medicare Part A Cost-Based Reimbursement Methodology.

# TELEHEALTH & TELEMEDICINE

- What is the difference between Telehealth and Telemedicine?
  - Telehealth can either refer to clinical and/or non-clinical services.
  - Telemedicine only refers to the provision of clinical services.

## Synchronous Telehealth

## Asynchronous Telehealth

### **synchronous** adjective

syn·chro·nous | \ 'sɪŋ-krə-nəs ⓘ, 'sɪn-\

#### **Definition of *synchronous***

- 1 : happening, existing, or arising at precisely the same time
- 2 : recurring or operating at exactly the same periods

### **asynchronous** adjective

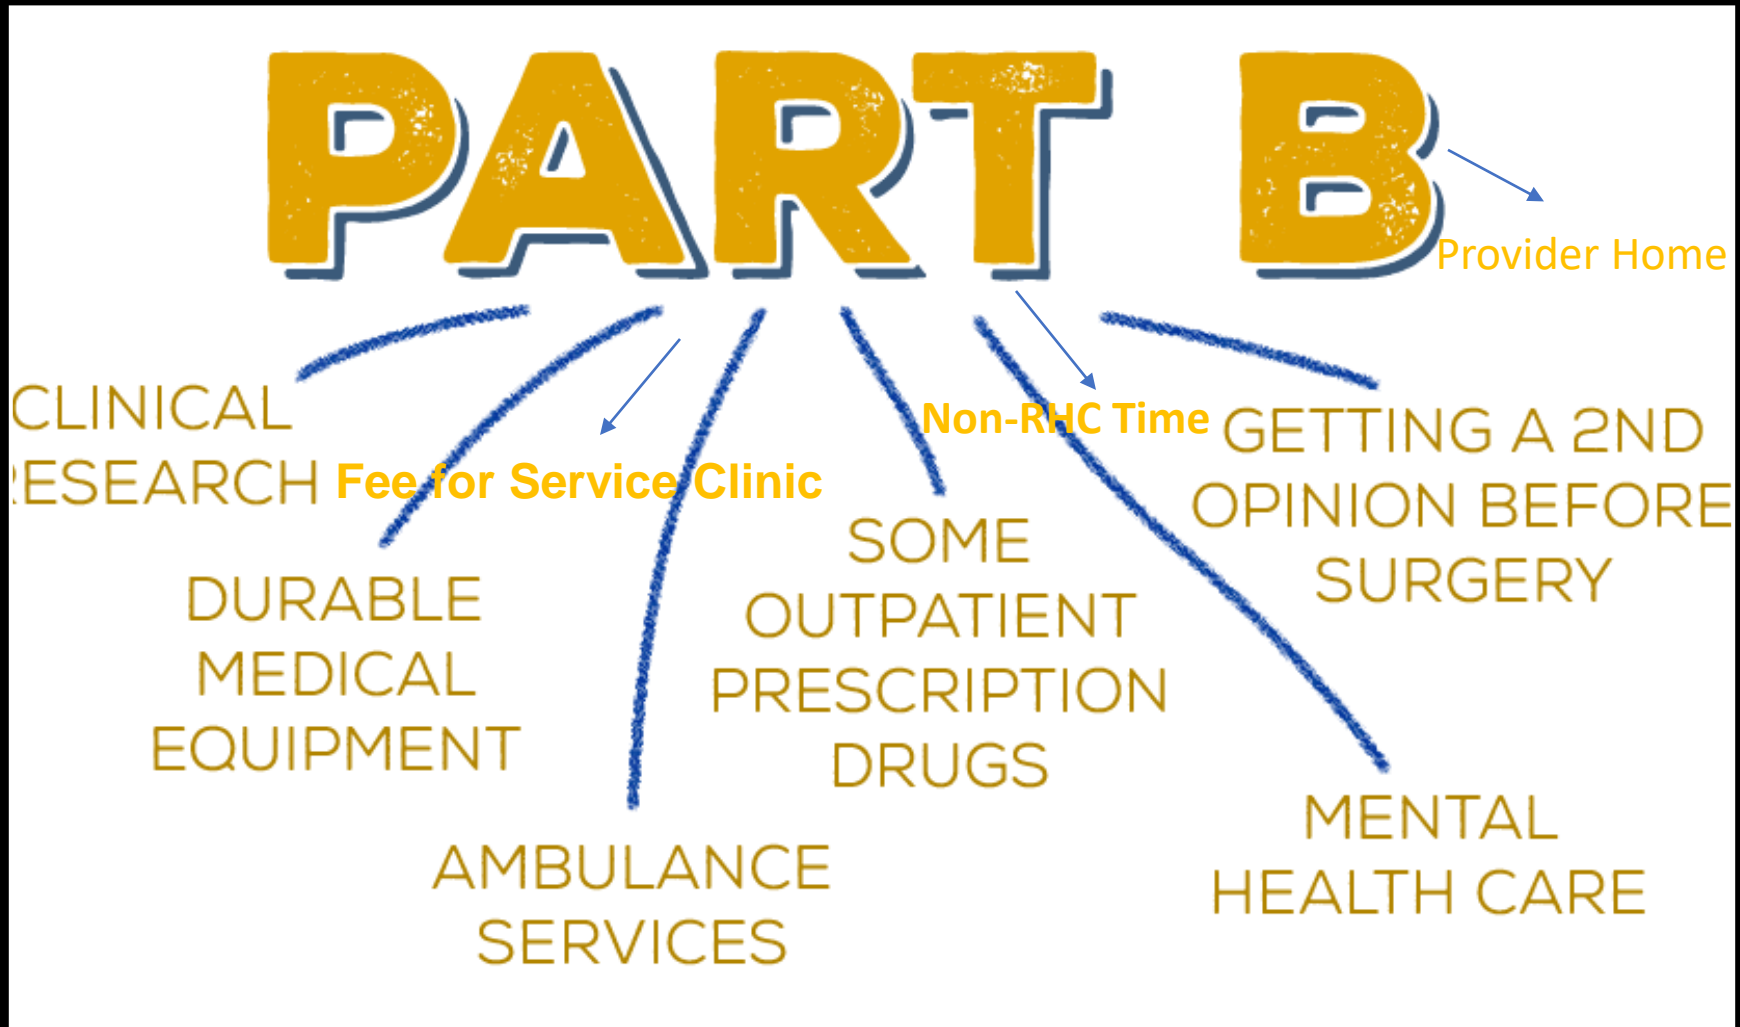

asyn·chro·nous | \ (ə) 'æsɪŋ-krə-nəs ⓘ, -'sɪn-\

#### **Definition of *asynchronous***

- 1 : not simultaneous or concurrent in time : not synchronous  
// *asynchronous* sound

Telehealth Services in Provider Homes and during Non-RHC Hours

## Physicians and Other Clinicians: CMS Flexibilities to Fight COVID-19

The Trump Administration is issuing an unprecedented array of temporary regulatory waivers and new rules to equip the American healthcare system with maximum flexibility to respond to the 2019 Novel Coronavirus (COVID-19) pandemic. Made possible by President Trump's recent emergency declaration and emergency rule making, these temporary changes will apply immediately across the entire U.S. healthcare system for the duration of the emergency declaration. The goals of these actions are to 1) to ensure that local hospitals and health systems have the capacity to handle a potential surge of COVID-19 patients through temporary expansion sites (also known as CMS Hospital Without Walls); 2) remove barriers for physicians, nurses, and other clinicians to be readily hired from the community or from other states so the healthcare system can rapidly expand its workforce; 3) increase access to telehealth in Medicare to ensure patients have access to physicians and other clinicians while keeping patients safe at home; 4) expand in-place testing to allow for more testing at home or in community based settings; and 5) put Patients Over Paperwork to give temporary relief from many paperwork, reporting and audit requirements so providers, health care facilities, Medicare Advantage and Part D plans, and States can focus on providing needed care to Medicare and Medicaid beneficiaries affected by COVID-19.

### Medicare Telehealth

Clinicians can now provide more services to beneficiaries via telehealth so that clinicians can take care of their patients while mitigating the risk of the spread of the virus. Under the public health emergency, all beneficiaries across the country can receive Medicare telehealth and other communications technology-based services wherever they are located. Clinicians can provide these services to new or established patients. In addition, providers can waive Medicare copayments for these telehealth services for beneficiaries in Original Medicare.

To enable services to continue while lowering exposure risk, clinicians can now provide the following additional services by telehealth:

- Emergency Department Visits, Levels 1-5 (CPT codes 99281-99285)
- Initial and Subsequent Observation and Observation Discharge Day Management (CPT codes 99217- 99220; CPT codes 99224- 99226; CPT codes 99234- 99236)
- Initial hospital care and hospital discharge day management (CPT codes 99221-99223; CPT codes 99238- 99239)
- Initial nursing facility visits, All levels (Low, Moderate, and High Complexity) and nursing facility discharge day management (CPT codes 99304-99306; CPT codes 99315-99316)
- Critical Care Services (CPT codes 99291-99292)
- Domiciliary, Rest Home, or Custodial Care services, New and Established patients (CPT codes 99327- 99328; CPT codes 99334-99337)
- Home Visits, New and Established Patient, All levels (CPT codes 99341- 99345; CPT codes 99347- 99350)
- Inpatient Neonatal and Pediatric Critical Care, Initial and Subsequent (CPT codes 99468- 99473; CPT codes 99475- 99476)

- Initial and Continuing Intensive Care Services (CPT code 99477- 99478)
- Care Planning for Patients with Cognitive Impairment (CPT code 99483)
- Psychological and Neuropsychological Testing (CPT codes 96130- 96133; CPT codes 96136- 96139)
- Therapy Services, Physical and Occupational Therapy, All levels (CPT codes 97161- 97168; CPT codes 97110, 97112, 97116, 97535, 97750, 97755, 97760, 97761, 92521- 92524, 92507)
- Radiation Treatment Management Services (CPT codes 77427)
- Licensed clinical social worker services, clinical psychologist services, physical therapy services, occupational therapist services, and speech language pathology services can be paid for as Medicare telehealth services.

A complete list of all Medicare telehealth services can be found here:

<https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes>

### Virtual Check-Ins & E-Visits

- Additionally, clinicians can provide virtual check-in services (HCPCS codes G2010, G2012) to both new and established patients. Virtual check-in services were previously limited to established patients.
- Licensed clinical social workers, clinical psychologists, physical therapists, occupational therapists, and speech language pathologists can provide e-visits. (HCPCS codes G2061-G2063).
- A broad range of clinicians, including physicians, can now provide certain services by telephone to their patients (CPT codes 98966 -98968; 99441-99443)

### Remote Patient Monitoring

- Clinicians can provide remote patient monitoring services to both new and established patients. These services can be provided for both acute and chronic conditions and can now be provided for patients with only one disease. For example, remote patient monitoring can be used to monitor a patient's oxygen saturation levels using pulse oximetry. (CPT codes 99091, 99457-99458, 99473-99474, 99493-99494)

### Removal of Frequency Limitations on Medicare Telehealth

To better serve the patient population that would otherwise not have access to clinically appropriate in-person treatment, the following services no longer have limitations on the number of times they can be provided by Medicare telehealth:

- A subsequent inpatient visit can be furnished via Medicare telehealth, without the limitation that the telehealth visit is once every three days (CPT codes 99231-99233);
- A subsequent skilled nursing facility visit can be furnished via Medicare telehealth, without the limitation that the telehealth visit is once every 30 days (CPT codes 99307-99310)
- Critical care consult codes may be furnished to a Medicare beneficiary by telehealth beyond the once per day limitation (CPT codes G0508-G0509).

<https://www.cms.gov/files/document/covid-19-physicians-and-practitioners.pdf>

- **Medicare Physician Supervision requirements:** For services requiring direct supervision by the physician or other practitioner, that physician supervision can be provided virtually using real-time audio/video technology.

#### **Other Medicare Telehealth and Remote Patient Care**

- For Medicare patients with End Stage Renal Disease (ESRD), clinicians no longer must have one “hands on” visit per month for the current required clinical examination of the vascular access site.
- For Medicare patients with ESRD, we are exercising enforcement discretion on the following requirement so that clinicians can provide this service via telehealth: individuals must receive a face-to-face visit, without the use of telehealth, at least monthly in the case of the initial 3 months of home dialysis and at least once every 3 consecutive months after the initial 3 months.
- To the extent that a National Coverage Determination (NCD) or Local Coverage Determination (LCD) would otherwise require a face-to-face visit for evaluations and assessments, clinicians would not have to meet those requirements during the public health emergency.
- Beneficiary consent should not interfere with the provision of telehealth services. Annual consent may be obtained at the same time, and not necessarily before, the time that services are furnished.
- Physician visits: CMS is waiving the requirement in 42 CFR 483.30 for physicians and non-physician practitioners to perform in-person visits for nursing home residents and allow visits to be conducted, as appropriate, via telehealth options.

#### **Workforce**

- **Medicare Physician Supervision requirements:** For services requiring direct supervision by the physician or other practitioner, that physician supervision can be provided virtually using real-time audio/video technology.
- **Medicare Physician Supervision and Auxiliary Personnel:** The physician can enter into a contractual arrangement that meets the definition of auxiliary personnel at 42 CFR 410.26, including with staff of another provider/supplier type, such as a home health agency (defined under § 1861(o) of the Act) or a qualified home infusion therapy supplier (defined under § 1861(iii)(3)(D)), or entities that furnish ambulance services, that can provide the staff and technology necessary to provide care that would ordinarily be provided incident to a physician’s service (including services that are allowed to be performed via telehealth). In such instances, the provider/supplier would seek payment for any services provided by auxiliary personnel from the billing practitioner and would not submit claims to Medicare for such services.
- **Medicare Physician Supervision requirements:** Direct physician supervision is no longer required for non-surgical extended duration therapeutic services provided in hospital outpatient departments and critical access hospitals. Instead, a physician can provide a general level of supervision for these services so that a physician is no longer required to be immediately available in the office suite.
- **Physician Services:** CMS is waiving 482.12(c)(1-2) and (4), which requires that Medicare patients in the hospital be under the care of a physician. This allows hospitals to use other practitioners, such as physician’s assistant and nurse practitioners, to the fullest extent possible. This waiver should be implemented in accordance with a state’s emergency preparedness or pandemic plan.
- **National coverage determinations (NCDs) and Local Coverage Determinations (LCDs):** To the extent NCDs and LCDs require a specific practitioner type or physician specialty to furnish or supervise a service, during this public health emergency, the Chief Medical Officer or equivalent of a hospital or facility will have the authority to make those staffing decisions.

**Interim Final Regulation added 6 new codes**

# Medicare Recognizes Four Types of Telemedicine

Effective March 6, 2020 and for the duration of the Public Health Emergency

## Telehealth

1. Audio and Video
2. Expanded to include all areas and all settings
3. Applicable to new and established patients
4. Medicare Copays and deductibles apply however OIG will allow flexibility for providers to reduce or waive fees during the PHE
5. Payment is changed to then non-facility fee schedule if performed in the office (POS 11, Modifier 95)
6. Consent to treat needs to be obtained\*

## Virtual Check-Ins

1. Phone Calls
2. No Geographic or location restrictions
3. Applicable only to established patients (New is Ok during PHE)
4. Medicare Copays and deductibles apply except when treating COVID
5. Consent to treat needs to be obtained\*
6. Part B codes are G2012 or G2010 & RHCs use G0071

## E-Visits

1. Patient Portal
2. No Geographic or location restrictions
3. Applicable only to established patients. (New is Ok during PHE)
4. Medicare Copays and deductibles apply except when treating COVID
5. Consent to treat needs to be obtained\*
6. Individual services need to be initiated by the patient, but practitioner may educate beneficiaries of availability of the service.

## Telephone

1. Prolonged Phone Calls
2. Part B Codes are 98966-98968 for Non-Physicians and 99441-99443 for physicians
3. Similar to virtual check-ins
4. Physical Therapist, Speech Pathologists, Occupational Therapists
5. Applicable only to established patients (New is Ok during PHE)
6. Medicare Copays and deductibles apply except when treating COVID)
7. Consent to treat

A close-up photograph of Jackie Chan with a confused expression, his hands on his head. The image is a meme with text overlays. The word "WAIT" is at the top, and "WHAT???" is at the bottom. A watermark "makeaneme.o" is in the bottom right corner.

**WAIT**

**WHAT???**

# **What are Telehealth Services?**

## Who can provide telehealth services?

- Physicians
- Nurse practitioners
- Physician assistants
- Nurse midwives
- Certified nurse anesthetists
- Clinical psychologists
- Clinical social workers
- Registered dietitians
- Nutrition professionals

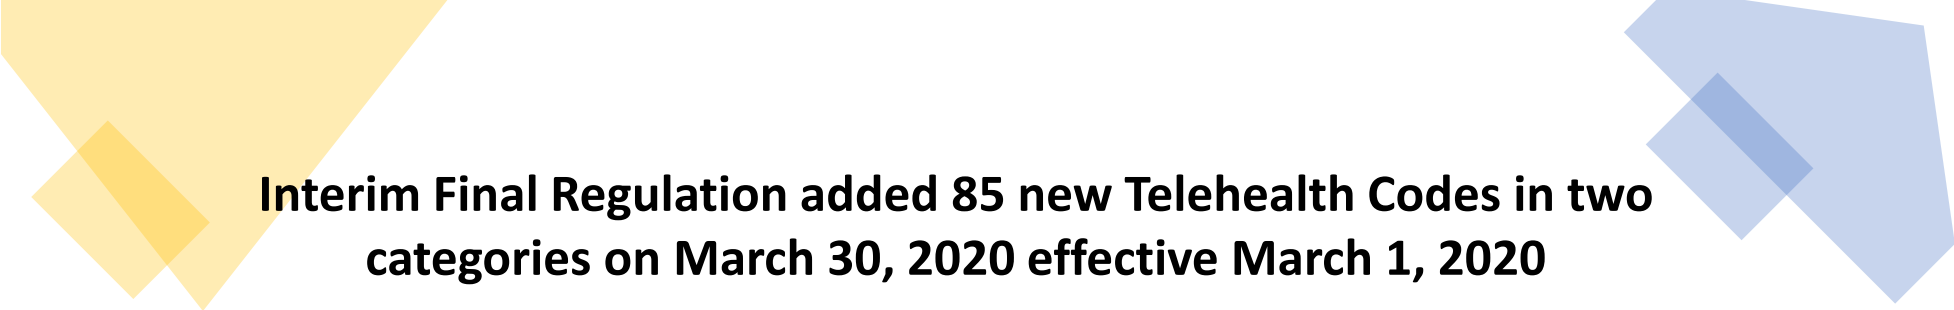

## Which Practitioners can perform Telehealth Public Health Emergency – 1135 Waiver

Waiver expanded list of eligible providers to provide services and be reimbursed

– Eligible providers are:

- Physicians
- Nurse practitioners
- Physician assistants
- Nurse-midwives
- Clinical nurse specialists
- Certified registered nurse anesthetists
- Clinical psychologists (CP)
- Clinical social workers (CSWs) (NOTE: CPs and CSWs cannot bill Medicare for psychiatric diagnostic interview examinations with medical services or medical evaluation and management services, they cannot bill or get paid for CPT codes 90792, 90833, 90836, and 90838)
- Registered dietitians or nutrition professional
- **Physical Therapists**
- **Occupational Therapists**
- **Speech Language Pathologist**

## Interim Final Regulation added 85 new Telehealth Codes in two categories on March 30, 2020 effective March 1, 2020

Category 1: **Services that are similar to professional consultations, office visits, and office psychiatry services that are currently on the list of telehealth services.** In reviewing these requests, we look for similarities between the requested and existing telehealth services for the roles of, and interactions among, the beneficiary, the physician (or other practitioner) at the distant site and, if necessary, the telepresenter, a practitioner who is present with the beneficiary in the originating site. We also look for similarities in the telecommunications system used to deliver the service; for example, the use of interactive audio and video equipment.

Category 2: **Services that are not similar to those on the current list of telehealth services. Our review of these requests includes an assessment of whether the service is accurately described by the corresponding code when furnished via telehealth and whether the use of a telecommunications system to furnish the service produces demonstrated clinical benefit to the patient.** Submitted evidence should include both a description of relevant clinical studies that demonstrate the service furnished by telehealth to a Medicare beneficiary improves the diagnosis or treatment of an illness or injury or improves the functioning of a malformed body part, including dates and findings, and a list and copies of published peer reviewed articles relevant to the service when furnished via telehealth. Our evidentiary standard of clinical benefit does not include minor or incidental benefits.

## Billing for Professional Telehealth Distant Site Services During the Public Health Emergency — Revised

**This corrects a prior message that appeared in our [March 31, 2020 Special Edition](#). **Even Medicare is having a hard time keeping up.****

Building on prior action to expand reimbursement for telehealth services to Medicare beneficiaries, CMS will now allow for more than 90 additional services to be furnished via telehealth. When billing professional claims for all telehealth services with dates of services on or after March 1, 2020, and for the duration of the Public Health Emergency (PHE), bill with:

- Place of Service (POS) equal to what it would have been had the service been furnished in-person
- Modifier 95, indicating that the service rendered was actually performed via telehealth

<https://www.cms.gov/outreach-and-education/outreachffsprovpartprogprovider-partnership-email-archive/2020-04-03-mlnc-se>

# How does a qualified provider bill for telehealth services during the PHE?

- Place of Service (POS) equal to what it would have been in the absence of a PHE
- Include modifier 95

# Interim Final Rules Released March 30 Change the POS for Telehealth

## Important

**“We are instructing physicians and practitioners who bill for Medicare telehealth services to report the POS code that would have been reported had the service been furnished in person.** This will allow our systems to make appropriate payment for services furnished via Medicare telehealth which, if not for the PHE for the COVID-19 pandemic, would have been furnished in person, at the same rate they would have been paid if the services were furnished in person. Given the potential importance of using telehealth services as means of minimizing exposure risks for patients, practitioners, and the community at large, we believe this interim change will maintain overall relativity under the PFS for similar services and eliminate potential financial deterrents to the clinically appropriate use of telehealth. **Because we currently use the POS code on the claim to identify Medicare telehealth services, we are finalizing on an interim basis the use of the CPT telehealth modifier, modifier 95, which should be applied to claim lines that describe services furnished via telehealth.** We note that we are maintaining the facility payment rate for services billed using the general telehealth POS code 02, should practitioners choose, for whatever reason, to maintain their current billing practices for Medicare telehealth during the PHE for the COVID-19 pandemic.”

Page 15 of Interim Final Regulation released March 30, 2020

## Telehealth Part B Billing Changes due to the Public Health Emergency

Per Interim Final Rule published March 30, 2020 applicable beginning March 1, 2020

\* CMS removed the restriction on originating sites on March 6, 2020

## **How much does Medicare pay for telehealth services?**

Medicare pays the same amount for telehealth services as it would if the service were furnished in person.

# Place of Service Matters

CPT with Description	POS 11 Non-Facility Modifier 95	POS 2 Facility Modifier 95	Variance	% Difference

# RHC Originating Site Telehealth Billing – Pre-Covid

Example: RHC is originating site and Physician is Distant site

Distant Site Provider (Specialist)  
Place of Service 02  
CPT Code 99213

Originating Site (RHC)  
Restricted to Certain Rural Areas  
Revenue Code 0780  
CPT Code Q3014

Total Medicare Payment  
Co-pays and Deductibles apply  
So payment amount will vary

# Medicare Part B – (Not RHC) Telehealth Billing – Public Health Emergency

Example: Physician provides Telehealth service while located in office

Medicare Part B Provider  
In a clinic  
Place of Service 11, Modifier 95  
CPT Code 99213

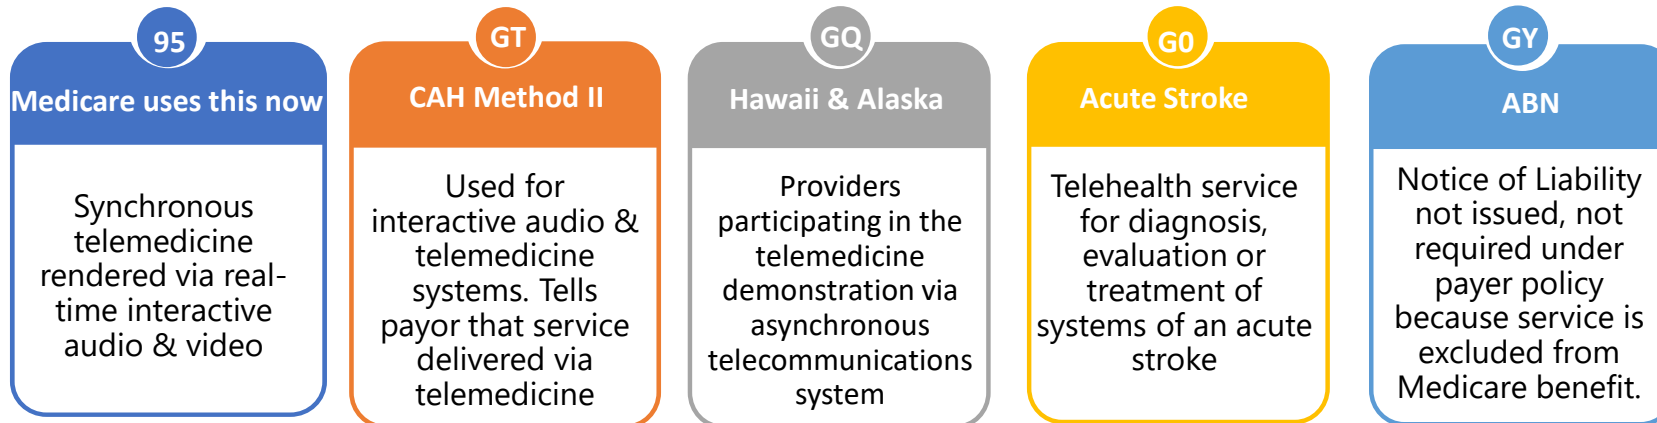

No Originating Site  
Patient can be home  
Or in urban area

Total Medicare Payment  
Co-pays and Deductibles apply  
So payment amount will vary

Place of Service Code 02 is no longer used during the PHE unless you want to be paid less.

# Modifiers used in Telehealth Billing

# Elimination of the GT Modifier for Telehealth Services

## Elimination of the GT Modifier for Telehealth Services

MLN Matters Number: MM10152      Related Change Request (CR) Number: 10152  
Related CR Release Date: November 29, 2017      Effective Date: January 1, 2018  
Related CR Transmittal Number: R3929CP      Implementation Date: January 2, 2018

### PROVIDER TYPES AFFECTED

This MLN Matters® Article is intended for providers who submit claims to Medicare Administrative Contractors (MACs) for telehealth services provided to Medicare beneficiaries.

### PROVIDER ACTION NEEDED

Change Request (CR) 10152 eliminates the requirement to use the GT modifier (via interactive audio and video telecommunications systems) on professional claims for telehealth services. Use of the telehealth Place of Service (POS) Code 02 certifies that the service meets the telehealth requirements.

### BACKGROUND

CR10152 revises the previous guidance that instructed practitioners to submit claims for telehealth services using the appropriate CPT or HCPCS code for the professional service along with the telehealth modifier GT (via interactive audio and video telecommunications systems). The GQ modifier is still required when applicable. As a result of the CY 2017 Physician Fee Schedule (PFS) final rule, CR9726 implemented payment policies regarding Medicare's use of a new POS Code 02 to describe services furnished via telehealth. The new POS code became effective January 1, 2017. Use of the telehealth POS code certifies that the service meets the telehealth requirements.

Note that for distant site services billed under Critical Access Hospital (CAH) method II on institutional claims, the GT modifier will still be required.

MACs will apply the "one every three days" frequency edit logic for telehealth services when codes 99231, 99232, and 99233 are billed with POS 02 for claims with dates of service January 1, 2018, and after. This frequency editing also applies when these services are span-dated on the claim (that is, the "from" date and the "to" date of service are not equal, and the "units" field is greater than one).

MACs will apply the existing "one every 30 days" frequency edit logic for telehealth services when codes 99307, 99308, 99309, and 99310 are billed with POS 02 for claims with dates of

MLN Matters MM10152

Related CR 10152

service January 1, 2018, and after. This frequency editing also applies when these services are span-dated on the claim (that is, the "from" date and the "to" date of service are not equal, and the "units" field is greater than one).

### ADDITIONAL INFORMATION

The official instruction issued to your MAC regarding this change is available at <https://www.cms.gov/Regulations-and-Guidance/Guidance/Transmittals/2017Downloads/R3929CP.pdf>.

**YOU KNOW WHAT WE NEED TODAY?**

**ANOTHER MODIFIER**

# Families First Coronavirus Response Act Waives Coinsurance and Deductibles for Additional COVID-19 Related Services

Cost-sharing does not apply for COVID-19 testing-related services, which are medical visits that: **are furnished between March 18, 2020 and the end of the Public Health Emergency (PHE)**; that result in an order for or administration of a COVID-19 test; are related to furnishing or administering such a test or to the evaluation of an individual for purposes of determining the need for such a test; **and are in any of the following** categories of HCPCS evaluation and management codes:

- Office and other outpatient services
- Hospital observation services
- Emergency department services
- Nursing facility services
- Domiciliary, rest home, or custodial care services
- Home services
- Online digital evaluation and management services

Cost-sharing does not apply to the above medical visit services for which payment is made to:

Hospital Outpatient Departments paid under the Outpatient Prospective Payment System

Physicians and other professionals under the Physician Fee Schedule

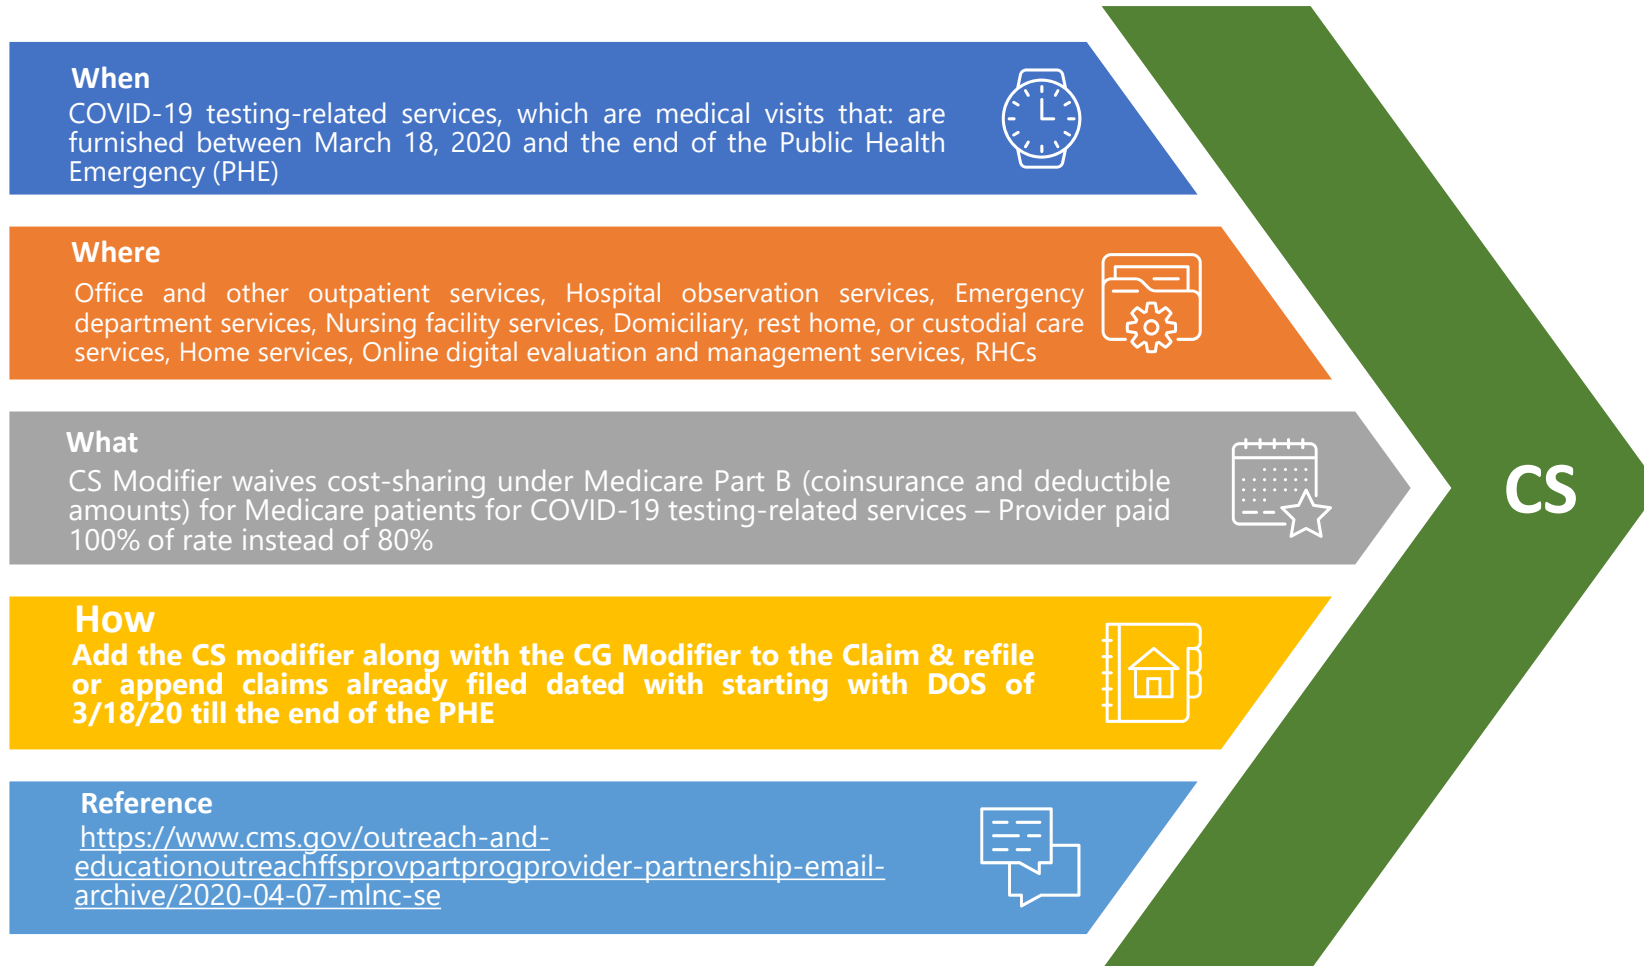

Critical Access Hospitals (CAHs)

**Rural Health Clinics (RHCs)**

Federally Qualified Health Centers (FQHCs)

**Not just for Telehealth services**

# CS Modifier Effective March 18, 2020

# Coinsurance and Deductible Waived – CS Modifier Announced 4/7/2020 backdated to March 18, 2020

- **Families First Coronavirus Response Act Waives Coinsurance and Deductibles for Additional COVID-19 Related Services**

The Families First Coronavirus Response Act waives cost-sharing under Medicare Part B (coinsurance and deductible amounts) for Medicare patients for COVID-19 testing-related services. These services are medical visits for the HCPCS evaluation and management categories described below when an outpatient provider, physician, or other providers and suppliers that bill Medicare for Part B services orders or administers COVID-19 lab test U0001, U0002, or 87635.

<https://www.cms.gov/outreach-and-education/outreachffsprovpartprogprovider-partnership-email-archive/2020-04-07-mlnc-se>

Virtual Check-Ins

# Virtual Visits billable for RHCs since January 1, 2019

## New Virtual Communication Services

Effective January 1, 2019, RHCs can receive payment for Virtual Communication services when at least 5 minutes of communication technology-based or remote evaluation services are furnished by an RHC practitioner to a patient who has had an RHC billable visit within the previous year, and both of the following requirements are met:

- The medical discussion or remote evaluation is for a condition not related to an RHC service provided within the previous 7 days, and
- The medical discussion or remote evaluation does not lead to an RHC visit within the next 24 hours or at the soonest available appointment.

To receive payment for Virtual Communication services, RHCs must submit an RHC claim with HCPCS code G0071 (Virtual Communication Services) either alone or with other payable services. Payment for G0071 is set at the average of the national non-facility PFS payment rates for HCPCS code G2012 (communication technology-based services) and HCPCS code G2010 (remote evaluation services) and is updated annually based on the PFS national non-facility payment rate for these codes. See [Virtual Communication Services Frequently Asked Questions \(PDF\)](#)

RHC face-to-face requirements are waived when these services are furnished to an RHC patient, and coinsurance and deductibles apply.

**Can be a new patient during the National emergency**

<https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/FQHCPPS/Downloads/VCS-FAQs.pdf>

# Virtual Check-in – Part B

## G2010

- Store and Forward evaluation of video or images
- Minutes: 5-10 - \$12.24

## G2012

- *Brief communication technology-based service*
- Minutes: 5-10 - \$14.80

Each code is up to 7 days cumulative time

## Virtual Check-Ins Key Takeaways

- Not limited to rural settings
- Patient must agree to the service
- HCPCS codes G2012 or G2010
- Broader range of communication methods

## **Licensed clinical social workers, clinical psychologists, physical therapists, occupational therapists, and speech-language pathologists can do Virtual Check-Ins**

On an interim basis, during the PHE for the COVID-19 pandemic, we are also broadening the availability of HCPCS codes G2010 and G2012 that describe remote evaluation of patient images/video and virtual check-ins. **We recognize that in the context of the PHE for the COVID-19 pandemic, practitioners such as licensed clinical social workers, clinical psychologists, physical therapists, occupational therapists, and speech-language pathologists might also utilize virtual check-ins and remote evaluations** instead of other, in-person services within the relevant Medicare benefit to facilitate the best available appropriate care while mitigating exposure risks. We note that this is not an exhaustive list and we are seeking input on other kinds of practitioners who might be furnishing these kinds of services as part of the Medicare services they furnish in the context of the PHE for the COVID-19 pandemic. Further, to facilitate billing of the CTBS services by therapists for the reasons described above, we are designating HCPCS codes G2010, G2012, G2061, G2062, or G2063 as CTBS CMS-1744-IFC 55 “sometimes therapy” services that would require the private practice occupational therapist, physical therapist, and speech-language pathologist to include the corresponding GO, GP, or GN therapy modifier on claims for these services. CTBS therapy services include those furnished to a new or established patients that the occupational therapist, physical therapist, and speech language pathologist practitioner is currently treating under a plan of care.

# TIMELINE of a Medicare Virtual Visit

## Look Back Period

The medical discussion or remote evaluation is for a condition not related to an RHC service provided within the previous 7 days

## The Virtual Visit

Represents at least 5 minutes of communication technology-based or remote evaluation services are furnished by an RHC practitioner to a patient.

## Going Forward

\*The medical discussion or remote evaluation does not lead to an RHC visit within the next 24 hours or at the soonest available appointment.

# E-Visits

# E-visits

Codes for practitioners who **may** bill independently:

- 99421
- 99422
- 99423

# E-Visits for Medicare Part B

99421

- Online digital E & M
- Minutes: 5-10 - \$15.52

99422

- Online digital E & M
- Minutes: 11-20 - \$31.04

99423

- Online digital E & M
- Minutes: 21 + - \$50.16

Each code is up to 7 days cumulative time

Source: <https://www.cms.gov/files/document/covid-final-ifc.pdf>

# Online digital evaluation and management service

## Other requirements:

- Verbal consent is required by CMS.
- The patient initiates the service with an inquiry through the portal
- The service is documented in the medical record.
- If the patient had an E/M service within the last seven days, these codes may not be used for that problem.
- If the inquiry is about a new problem (from the problem addressed at the E/M service in the past 7 days), these codes may be billed.
- If within seven days of the initiation of the online service a face-to-face E/M service occurs, then the time of the online service or decision-making complexity may be used to select the E/M service, but this service may not be billed.
- This is for established patients, per CPT®. – **Waived during PHE.**
- This may not be billed by surgeons during the global period.
- The digital service must be provided via a HIPAA compliant platform, such as an electronic health record portal, secure email or other digital applications. **Waived during PHE.**

## Additionally:

- These services may only be reported once in a 7-day period.
- Clinical staff time may not be included.
- Don't double count time with any other separately reported services, such as care management, INR monitoring, remote monitoring. (CPT® book has a list of codes)

# Online digital evaluation and management service

- Report these services once during a 7-day period, for the cumulative time. According to CPT®,
- “The seven-day period begins with the physician’s or other qualified health care professional’s (QHP) initial, personal review of the patient-generated inquiry. Physician’s or other QHP’s cumulative service time includes review of the initial inquiry, review of patient records or data pertinent to assessment of the patient’s problem, personal physician or other QHP interaction with clinical staff focused on the patient’s problem, development of management plans, including physician or other QHP generation of prescriptions or ordering of tests, and subsequent communication with the patient through online, telephone, email, or other digitally supported communication, which does not otherwise represent separately reported E/M service.”

## **E-Visit Key Takeaways**

- Not limited to rural settings
- No geographic or location restrictions
- Initiated by the patient
- Practitioners may educate beneficiaries
- Bill using CPT codes 99421-99423 and HCPCS codes G2061-G2063
- Medicare coinsurance and deductible generally apply

# Online digital evaluation and management service

- **99421** Online digital evaluation and management service, for an established patient (**waived during PHE**), for up to 7 days cumulative time during the 7 days; 5-10 minutes
  - **99422** 11—20 minutes
  - **99423** 21 or more minutes
- These codes are for use when E/M services are performed, of a type that would be done face-to-face, through a HIPAA compliant secure platform. These are for patient-initiated communications, and may be billed by clinicians who may independently bill an E/M service. **They may not be used for work done by clinical staff or for clinicians who do not have E/M services in their scope of practice.**

# Telephone Services

## **Codes for Telephone Services:**

- 99441 - 99443
- 98966 - 98968

# Telephone CPT Codes for Physician or other Health Care Professionals

99441 (Telephone evaluation and management service by a physician or other qualified health care professional who may report evaluation and management services provided to an established patient, parent, or guardian not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion),

99442 (Telephone evaluation and management service by a physician or other qualified health care professional who may report evaluation and management services provided to an established patient, parent, or guardian not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 11-20 minutes of medical discussion), and

99443 (Telephone evaluation and management service by a physician or other qualified health care professional who may report evaluation and management services provided to an established patient, parent, or guardian not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 21-30 minutes of medical discussion).

# Telephone CPT Codes for Qualified Nonphysician Health Care Professionals

CPT codes 98966 (Telephone assessment and management service provided by a qualified nonphysician health care professional to an established patient, parent, or guardian not originating from a related assessment and management service provided within the previous 7 days nor leading to an assessment and management service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion),

98967 (Telephone assessment and management service provided by a qualified nonphysician health care professional to an established patient, parent, or guardian not originating from a related assessment and management service provided within the previous 7 days nor leading to an assessment and management service or procedure within the next 24 hours or soonest available appointment; 11-20 minutes of medical discussion),

98968 (Telephone assessment and management service provided by a qualified nonphysician health care professional to an established patient, parent, or guardian not originating from a related assessment and CMS-1744-IFC 123 management service provided within the previous 7 days nor leading to an assessment and management service or procedure within the next 24 hours or soonest available appointment; 21-30 minutes of medical discussion),

# Telephone CPT Codes for Qualified Nonphysician Health Care Professionals

To facilitate billing of these services by therapists, we are designating CPT codes 98966- 98968 as CTBS “sometimes therapy” services that would require the private practice occupational therapist, physical therapist, and speech-language pathologist to include the corresponding GO, GP, or GN therapy modifier on claims for these services.

## **Should on-site visits conducted via video or through a window in the clinic suite be reported as telehealth services?**

Services should only be reported as telehealth services when the individual physician or professional providing the telehealth service is not at the same location as the beneficiary. That doesn't mean that service conducted via a video or through a window cannot be reported.

# Documenting a Telehealth Visit

## Documentation Needed for a Telemedicine Visit

▼ TeleHealth ...

Patient consented to receive services via telehealth?  
 Yes  No

Real-time synchronous services were performed via

All participants and their role: (Provider,MA,Parent, etc)
