Types of Codes <i>ICD-10-CM (AMA/AHA/CMS/NCHS) Why did you perform the service? Do you have current coding guidelines?</i>	CPT Codes – Current Procedural Terminology (What did you do)	HCPCS II Codes Healthcare Common Procedure Coding System (What you did and what supplies were used)
Definition	It was designed to describe medical, surgical, and diagnostic services accurately. It is also used as a form of uniform communication among physicians, coders, patients, accreditation organizations, and those who pay for administrative, financial, and analytical purposes about certain medical procedures and services.	is a set of health care procedure codes based on CPT. It was designed to provide a standardized coding system in order to describe specific items and services that are provided when health care is delivered. It is a necessary form of coding for anyone who carries Medicare, Medicaid, and other health insurance programs in order to ensure that insurance claims are processed efficiently.
Example:	An RHC provides a 99213 via telehealth. The CPT Code is 99213.	The 99213 converts to a G2025 when billed to Medicare plus any required modifiers (CG/95/FQ)
Responsibility	Physicians, NPs, PAs, providers, Coders	Billers, Office Manager, CFO, Administrator

## 4. RHCs should charge:

A. Only the RHC reimbursement rate to Medicare and Medicaid

B. All payors using the same chargemaster

C. All payors the same chargemaster except indigent patients

D. As much as possible

# Charge Example

I recommend 150 to 200 percent of the Medicare Fee Schedule.

For example, 150% = \$130 (85.59 \*1.5) and 200% = \$170 (85.59\*2). I would split the difference and charge \$150.

## **40 - RHC and FQHC Visits**

**(Rev. 239, Issued: 01-09-18, Effective: 1-22-18, Implementation: 1-22-18)**

An RHC or FQHC visit is a medically-necessary medical or mental health visit, or a qualified preventive health visit. The visit must be a face-to-face (one-on-one) encounter between the patient and a physician, NP, PA, CNM, CP, or a CSW during which time one or more RHC or FQHC services are rendered. A Transitional Care Management (TCM) service can also be an RHC or FQHC visit. Services furnished must be within the practitioner's state scope of practice, and only services that require the skill level of the RHC or FQHC practitioner are considered RHC or FQHC visits.

## Rural Health Clinic Qualifying Visit List (RHC QVL) (8-01-16)

The RHC QVL is intended as guidance for RHCs beginning to report HCPCS codes. It consists of frequently reported Healthcare Common Procedure Coding System (HCPCS) codes that qualify as a face-to-face visit between the patient and an RHC practitioner and it is not an all-inclusive list of stand-alone billable visits for RHCs. More information on what is considered a RHC visit is included in the “RHC Visits” section of this guidance.

In this update to the QVL, *HCPCS code G0490 has been added as a stand-alone billable visit effective October 1, 2016 and HCPCS codes G0436 and G0437 have been replaced with CPT codes 99406 and 99407 effective October 1, 2016.* See the table below and accompanying footnotes for more information. The billable visits shown in black below are both effective and payable as stand-alone services beginning with dates of service on or after April 1, 2016. The billable visits shown in red below are effective for dates of service on or after April 1, 2016, for claims and adjustments received on or after October 1, 2016. RHCs should hold claims solely for these billable visits (shown in red) until October 1, when RHCs can bill these claims for payment *with the CG modifier (explained below)*. For dates of service on or after October 1, 2016, a medically-necessary service not on the current QVL can be billed as a stand-alone billable visit if the service meets Medicare coverage requirements, is within the scope of the RHC benefit, and is not furnished incident to a physician’s service.

NOTE: The use of a HCPCS code from the below QVL does not guarantee payment of the claim. All of the conditions for coverage and payment must be met for payment to be made. RHCs must retain adequate documentation of a patient’s condition and the services furnished as part of the patient’s medical record, which, along with the claim, may be subject to review by CMS, its contractors, or other oversight authorities.

### HCPCS Reporting Requirements

For dates of service on or after April 1, 2016, RHCs are required to report the appropriate HCPCS code for each service line along with revenue code on their Medicare claims. Services furnished through March 31, 2016, are not required to be reported with HCPCS code and should be billed under the previous guidelines.

From April 1, 2016 through September 30, 2016, all charges for a visit must be reported on the service line with the qualifying visit HCPCS code, minus any charges for preventive services using revenue code 052x for medical services and/or revenue code 0900 for mental health services. RHCs are allowed to report additional 052x or 0900 revenue code lines. Beginning on October 1, 2016, the Medicare administrative contractors (MACs) will accept modifier CG (policy criteria applied) on RHC claims and adjustments. RHCs shall report modifier CG on one revenue code 052x and/or 0900 service line, which includes all charges subject to coinsurance and deductible for the visit. Modifier CG should only be used to indicate which revenue code 052x and/or 0900 service line should receive the all-inclusive rate (AIR) and be subject to coinsurance and deductible. Each additional service furnished during the visit should be reported with charges greater to or equal to \$0.01. The additional service lines are for informational purposes only. MACs will package/bundle the additional service lines, which do not receive the

(Revised 10-14-16)

**Q7.** Is modifier CG reported with the initial preventive physical examination (IPPE) when it is billed alone or with other billable services on a claim?

**A7.** No. Modifier CG does not need to be reported with the IPPE HCPCS code whether it is billed alone or with other payable services on a claim. When IPPE is furnished with another medically necessary face-to-face service, modifier CG is reported with the HCPCS code for the other billable service.

A. Every visit

B. Annually

C. Every 90 days

# Medicare Secondary Payor Rules

## Gathering Accurate Data

---

You must determine if Medicare is the primary or secondary payer for each inpatient admission or outpatient encounter before submitting a Medicare claim. Ask patients about other coverage. Questions you ask help update patient insurance information and verify the patient's CWF record is correct and current.

CMS developed tools, including an MSP model questionnaire, [Admissions Questions to Ask Medicare Beneficiaries](#), to help providers identify the correct primary claims payers for all patient hospital services provided. CMS electronic tools help identify and verify MSP situations. Get more information in [Medicare Secondary Payer Manual, Chapter 3, Section 20](#) or [contact your MAC](#).

Providers must keep completed MSP questionnaire copies and other MSP information for 10 years after the service date. You may keep hard copy files, optical images, microfilms, or microfiches. When storing these files online, keep negative and positive question responses.

## 20.2.1 - Admission Questions to Ask Medicare Beneficiaries

*(Rev.)*

The following *questionnaire contains* questions *that can be used* to ask Medicare beneficiaries upon each inpatient and outpatient admission. Providers *may use this* as a guide to help identify other payers that may be primary to Medicare. *This questionnaire is a model of the type of questions that may be asked to help identify Medicare Secondary Payer (MSP) situations. If you choose to use this questionnaire, please note that it was developed to be used in sequence. Instructions are listed after the questions to facilitate transition between questions. The instructions will direct the patient to the next appropriate question to determine MSP situations.*

## Revenue Codes, FL42

The RHC/FQHC assigns a revenue code for each type of service provided and enters the appropriate four-digit numeric revenue code to explain each charge.

For FQHC claims with dates of service on or after January 1, 2010, FQHCs may report additional revenue codes when describing services rendered during an encounter. However, Medicare payment will continue to be reflected only on claim lines with the revenue codes in the following table:

Code	Description
0521	Clinic visit by member to RHC/FQHC
0522	Home visit by RHC/FQHC practitioner
0524	Visit by RHC/FQHC practitioner to a member in a

---

Code	Description
	covered Part A stay at the SNF
0525	Visit by RHC/FQHC practitioner to a member in a SNF (not in a covered Part A stay) or NF or ICF MR or other residential facility
0527	RHC/FQHC Visiting Nurse Service(s) to a member's home when in a home health shortage area
0528	Visit by RHC/FQHC practitioner to other non RHC/FQHC site (e.g., scene of accident)
0519	Clinic, Other Clinic (only for the FQHC supplemental payment)
0900	Mental Health Treatment/Services

12. An RHC treats a patient on January 1, 2022 and charges \$233. The RHCs AIR is \$113. When the bill is submitted to Medicare how much does Medicare pay?

A. 0

B. \$120

C (\$120)

D. \$46.60

# Negative Reimbursement

## Rural Health Clinics (RHC)

For Rural Health Clinics (RHCs), negative reimbursement is encountered when the cost of the visit is greater than the provider encounter rate and the billed amount is applied to the patient's Medicare deductible.

Example	2022	
Total billed amount	\$233	\$115.00
Provider all-inclusive reimbursement rate	\$113	\$75.00
Amount applied to deductible	\$233	\$115.00
Beneficiary's responsibility	\$233	\$115.00
Medicare reimbursement	-\$120	-\$40.00

When posting it is important to balance to the patient responsibility per the EOB. The variance is Medicare contractual and is an adjustment (not collectable from the patient).

13. When posting a negative reimbursement claim an RHC should always:

**A. Ensure that the Patient Balance remains correct after posting.**

**B. Post the withhold to the patient balance.**

**C. Include the negative reimbursement on the Credit Balance Report.**

14. How often does an RHC have to complete a Form 838 Credit Balance Report?

---

- A. Weekly
- B. Monthly
- C. Quarterly
- D. Annually

The Medicare Credit Balance Report must be completed Quarterly or your payments will be cut off.

<https://www.cms.gov/medicare/cms-forms/cms-forms/downloads/cms838.pdf>

# New Edits are affecting RHC payments

## New Editing Established for Federally Qualified Health Center and Rural Health Clinics

For claims processed on and after July 1, 2021, editing is being established for claims submitted by a Federally Qualified Health Center (FQHC) or Rural Health Clinic (RHC) for Medicare Part B Jurisdiction J.

If you are designated by Medicare as a FQHC or a RHC and perform services that are outside the scope of the FQHC or RHC, it is the responsibility of the clinic to ensure that the service is submitted to the correct Medicare Administrative Contractor, for either Part A or Part B.

Only Independent FQHCs or RHCs should be submitting services to Medicare Part B for non-clinic services. Please follow CMS Internet Only Manual instructions found in the [Benefit Policy Manual, 100-2, Chapter 13](#) (PDF, 470 KB) and the [Claims Processing Manual, 100-4, Chapter 9](#) (PDF, 312 KB) to ensure proper billing.

Monitoring will continue to ensure that services are not paid by both A and B. Clinic services submitted to Part B that should be included in the All Inclusive Rate (AIR) or those that are considered a FQHC or RHC benefit will be denied as they should be submitted to Part A. Claims will be denied with the following CARC and RARC messages below:

**CARC 109** – Claim/service not covered by this payer/contractor. You must send the claim/service to the correct payer/contractor.

**RARC N418** – Misrouted claim. See the payer's claim submission instructions.

This 2 day LIVE VIRTUAL bootcamp focuses on clinical documentation, coding, & billing for Rural Health Clinics (RHCs) & Community Health Centers (FQHCs) and allows attendees who choose to use their webcam to have smooth and natural live Q&A sessions with the instructor!

Though this class is designed to help facility managers and revenue cycle staff to pass the optional certification exam to become a Rural Health - Coding & Billing Specialist (RH-CBS) or a Community Health Coding & Billing Specialist (CH-CBS) we urge clinical personnel (MD, DO, NP, PA, RN) to attend as well since clinical documentation is key to

everything. RIII D A SHARED FOUNDATION OF KNOWLEDGE

## RHC MEDICARE BILLING RESOURCES

Healthcare Business Specialists, LLC is pleased to provide you with these billing resources to help your rural health clinic bill Medicare for your services. Billing RHC services requires the ability to create a UB-04 in an electronic format (837I). Many RHCs need access to Direct Data Entry (DDE) to verify coverage or adjust claims and Ability is a service that many of our RHC clients recommend.

### Spotlights

- RHC Policies Addressed in the CY 2022 Physician Fee Schedule Final Rule**

CMS issued the [CY 2022 Medicare Physician Fee Schedule Final Rule](#) which included several provisions that impacted RHCs. A list of provisions effective January 1, 2022 is outlined below. Information regarding each of these policies is available in the [CY 2022 Medicare Physician Fee Schedule Final Rule Fact Sheet](#).

  - Payment limit per visit changes for independent and provider-based RHCs
  - Payment for attending physician services furnished by RHCs to hospice patients
  - Concurrent Billing for Chronic Care Management Services (CCM) and Transitional Care Management (TCM) Services for RHCs
  - Mental Health Services Furnished via Telecommunications Technologies for RHCs
  - Change to the general care management HCPCS code G0511 to replace G2064 and G2065 with CPT code 99424 and 99426
- COVID-19 Public Health Emergency (PHE) - Updates for RHCs**

To provide as much support as possible to RHCs and their patients during the COVID-19 (PHE), we have made several changes to RHC requirements and payments. These changes are for the duration of the COVID-19 PHE, and we will continue to review our policies as the situation evolves. For additional information and other flexibilities, please see the link: <https://www.cms.gov/files/document/03092020-covid-19-faqs-508.pdf> (PDF)
- COVID-19 Vaccines in RHCs**

COVID-19 vaccines and their administration will be paid the same way influenza and pneumococcal vaccines and their administration are paid in RHCs. Influenza and pneumococcal vaccines and their administration are paid at 100 percent of reasonable cost through the cost report. The beneficiary coinsurance and deductible are waived. For Medicare Advantage patients, RHCs and FQHCs should submit COVID-19 vaccine administration claims to the Medicare Advantage Plan for dates of service on or after January 1, 2022. Original Medicare won't pay for these claims beginning in January 2022. For dates of service in 2021, RHCs and FQHCs should use the cost report to bill for administering COVID-19 vaccines. For additional information, please see <https://www.cms.gov/covidvax>.
- Payment for Telehealth Services for RHCs During the COVID-19 PHE**

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law. Section 3704 of the CARES Act authorizes RHCs to furnish distant site telehealth services to Medicare

The Rural Health Clinic (RHC) program is intended to increase access to primary care services for patients in rural communities. RHCs can be public, nonprofit, or for-profit healthcare facilities. To receive certification, they must be located in rural, underserved areas. They are required to use a team approach of physicians working with non-physician providers such as nurse practitioners (NP), physician assistants (PA), and certified nurse midwives (CNM) to provide services. The clinic must be staffed at least 50% of the time with an NP, PA, or CNM (requirement waived during COVID-19 public health emergency). RHCs are required to provide outpatient primary care services and basic laboratory services.

The main advantage of RHC status is enhanced reimbursement rates for providing Medicare and Medicaid services. The MLN Fact Sheet, [Rural Health Clinic](#), describes how RHCs are reimbursed “an all-inclusive rate (AIR) for medically-necessary primary health services and qualified preventive health services furnished by an RHC practitioner.” For Medicaid, a [2016 CMS letter to state health officials](#) details how Medicaid visits are reimbursed under a Prospective Payment System (PPS) or an alternative payment methodology (APM), providing a payment that is at minimum the same amount required under a PPS. For specific Medicare regulations governing the RHC program, see [Rural Health Clinics - Rules and Guidelines](#) compiled by the [National Association of Rural Health Clinics](#), or visit the Centers for Medicare and Medicaid Services (CMS) [Medicare Rural Health Clinics Center](#).
